

WHAT'S WWF-SA DOING TO SAVE RHINOS?

WWF-South Africa has A **5**-point **ACTION** plan to help grow rhino populations, stop rhino poaching, and decrease demand for rhino horn.

1

PROTECT & GROW RHINO POPULATIONS

WWF provides support for rhino rangers and vital equipment like radios, vehicles and motorbikes.

Our Black Rhino Range Expansion Project (BRREP) has created...

8 new populations & 40 new calves

...and secured over 160 000 hectares for rhinos

CONNECT LOCAL COMMUNITIES

2

WWF also works connecting local communities who live close to rhino reserves, to share the benefits of protecting wildlife.

3

SUPPORT LAW ENFORCEMENT

WWF also provides support to agencies fighting to combat the illegal trafficking in rhino horn.

BREAK THE ILLEGAL TRADE CHAIN

4

WWF is also driving international co-operation between governments to halt illicit trade of rhino horn.

5

STOP THE DEMAND

WWF is also campaigning internationally to reduce the demand for rhino horn

we need to get radical and take action, or criminals will win and South Africa will lose its rhinos!

RHINO RAID

PLAY NOW!

SAVE THE

RHINOS!

LET'S GET RADICAL!
